

Maaz Siddiqui

FULL-STACK DEVELOPER

ABOUT ME

Embarking on my journey as a full-stack developer, I am thrilled to delve into the realm of dynamic and comprehensive web development. Mastering a range of languages, from HTML, CSS, and JavaScript on the front end to diving into backend frameworks

(in Process)*

INTEREST

Front End

interactive Websites and Graphic Design

- I wanted to creat visually appealing and responsive web interfaces using HTML, CSS, and JavaScript.
- I wanted to gain more Knowledge about UI/UX designing.
- I am committed to staying up-to-date with the latest design trends, software tools, and techniques to evolve and improve my design skills.
- Excited to work with a variety of design tools and software. (Photoshop, Illustrator etc)

Back End

data integrity and security

- Intrigued by the logic-driven nature of coding on the server side.
- I am committed towards mastering the art of implementing robust security measures in the back-end.
- Eager to explore the intricacies of building robust back-end architectures that can scale to handle increasing user demands and ensure high-performance applications.
